SUPPLIES KITS
• Designed to augment custodial services and distribute other necessary supplies
• Provided to all department work areas and all classrooms
  • Department distribution week of July 6 via Mail Services
  • Classroom distribution in early August via Mail Services
Community of Care Kits

- Kit bag - 100% recycled materials
- 25 pk. disinfectant wipes
- 5 oz. hand sanitizer
- 2 x 100% cotton 2-ply masks
- Digital oral thermometer
The Community of Care Kit was created to encourage a safe and welcoming environment in which all Sun Devils can live, learn and work together.

Within this starter kit you will find:

- Face coverings
- Thermometer
- Disinfectant wipes
- Hand sanitizer

**Wearing is caring**
Everyone is required to wear a face covering while in ASU buildings. Face coverings will also be required in outdoor community spaces where social distancing isn’t possible.

**Take care of each other - and take care of yourself**
Students and employees will need to monitor their temperature each day. If you find that you have a fever, you should stay home and seek health advice.

**Spread joy, not droplets**
Germs may be spread on surfaces. Do your part and wipe down common areas and disinfect surfaces regularly to reduce the risk.

**Be wise. Sanitize.**
Practice good hygiene by using hand sanitizer when you're out and about and after coming in contact with high-touch surfaces, such as elevator buttons, door handles or handling money.

**Be in safe hands: clean ones**
Frequent hand washing remains among the best ways to slow the spread. Wash your hands for at least 20 seconds using soap and water - after being out in public, after coughing, before and after eating and...well, right now.

Find resources and learn more at coronavirus.asu.edu.
