Announcements

Weekly CHS COVID-19 Initiatives updates

The COVID-19 pandemic poses unprecedented personal, institutional, and global challenges and our college is committed to supporting its members and communities. As communication is a vital component of this effort, the CHS COVID-19 Initiatives Coordinating Team will provide a weekly newsletter on COVID-19 related news and information to all faculty and staff.

CHS COVID-19 Initiatives Domains (New Intranet Site)

The CHS COVID-19 Initiatives Coordinating Team is working to foster and support communication and collaboration within the college on COVID-19 related activities.

We have identified five domain areas, and each is led by a CHS faculty and staff member. To contribute ideas or information, join one or more of the domain teams, share your ongoing partnerships or projects or work on various projects related to COVID-19, please complete this survey. Each team will be scheduling meetings and information will be shared with those who have identified interest via the survey and in future newsletters.

If you should have any questions or concerns, please free to email us at CHSCovid@asu.edu.

COVID-19 Translational Team

There is a significant amount of COVID-19 related research going on within CHS and across ASU. The COVID-19 Translational Team leads are working to create a community of practice and transdisciplinary research across the translational spectrum. The aim is to ultimately
bring together multiple research teams to be prepared for multiple funding opportunities. If you are interested in being part of this effort, please contact Tina Young, Tina.L.Young@asu.edu.

This Friday’s COVID-19 Translational Team Meeting will be at 1pm.

Knowledge Enterprise COVID-19
Please note the Knowledge Enterprise is moving forward on COVID-19 research.

COVID-19 Grant Program
Initial submission deadline, April 13, 2020, 11:59 p.m., MST.
The College of Health Solutions announces the COVID-19 grant program for faculty. The purpose is twofold: 1) to develop and foster transdisciplinary and translational team research collaborations within CHS, across ASU, and with external partners related to COVID-19 and 2) to generate pilot data for subsequent proposals for external research funding related to COVID-19. Submit applications to CHSPilotGrants@asu.edu.

Applications received after April 13, 2020 will be accepted, although those received first will receive priority. A rolling deadline will extend until all funds are allocated.

Events

Health Talks
Friday, April 17, 2020 12:00-1:00 pm

The SARS-CoV2 virus and the COVID-19 Pandemic: Effective diagnostics are the key to recovery of health, society, and the economy with Mara Aspinall and Joshua LaBaer.
