Announcements

CHS COVID-19 Resource Hub website is live

The COVID-19 Resource Hub from the College of Health Solutions at Arizona State University is designed to support your health and well-being during the COVID-19 pandemic. With resources for all ages and populations — including parents, children, teachers, students, veterans and health professionals — we remain committed to serving our communities and helping you thrive.

We take a comprehensive approach to health and offer support for working, learning and living. We are in this together: If you have a resource to suggest, connect and reach out.

Self-care checkup module

Brought to you by Micki Hrncir, Katrina Fogelson, and team. This is an Open Invitation to complete your Self-Care Checkup, which is a 90-minute, self-paced course.

In order to enroll, please log into MyASU, then open a new tab, and lastly right click to copy/paste this hyperlink into the new tab (for ASU Affiliates only, at this time).

Face Mask Project

The CHS Community Partnership & Engagement domain is engaging with our Community Partners by helping to make masks for people who are serving at-risk or underserved populations (for instance, the people at the schools giving out free lunches for children under 18).
If interested, please use the links below:
  - Sewing Masks
  - Requesting Masks
  - Forwarding link for friends to sew

**CHS COVID-19 Grant program**

CHS Research Success Hub is continuing to accept COVID-19 grant proposals until all funds are allocated. We will announce recipients, as well as a notice when the opportunity closes. Please contact CHSPilotGrants@asu.edu with questions.

---

**Highlights**

**Will Arizona heat kill COVID-19?**

An article, featuring Dr. Timothy Lant, ASU Director of Program Development, Biodesign Institute, discussing dry heat in Arizona and COVID-19.

---

**Hospital Resources, Public Health Facilities, and Social Vulnerability amid the COVID-19 Pandemic in Arizona**

Knowledge Enterprise (KE) utilized third party resources to compile this map on Hospital Resources, Public Health Facilities, and Social Vulnerability amid the COVID-19 Pandemic in Arizona. Included in the map are locations of drive-up testing sites, confirmed COVID-19 cases and deaths by county, healthcare locations, etc. It’s a useful ‘one stop’ site for relevant information regarding COVID in Arizona.

---

**CHS Employee Emergency Fund**

Due to COVID-19, the College of Health Solutions has established the CHS Employee Emergency Fund. Once funds are available, the Faculty and Staff Vitality team will share the process for seeking assistance. If you have questions, please contact CHSCovid@asu.edu.

---

**PolicyMap**
The College of Health Solutions has a subscription to PolicyMap which is a resource housed in CHiR. If interested in accessing PolicyMap, please email CHSCovid@asu.edu.

---

**Coronavirus Disease 2019 (COVID-19) News and Resources**

This website is filled with news and resources concerning COVID-19. It is brought to you by the National Academies of Sciences, Engineering, and Medicine.

### Events

**Health Talks: COVID-19 Series**

**What does the science say about reopening?**

Friday, May 8, 2020 – 11am – 12pm

"When can the U.S. reopen?" is the most important question facing government officials and health authorities alike as the stay-at-home order continues and the economy worsens in the face of the COVID-19 pandemic. Join us as a panel of experts explores current data about the disease and discusses policy issues and projections about when the country can safely begin the process of emerging from the shutdown.

**Panelists:**

- **Megan Jehn** is an associate professor of epidemiology and member of the global health faculty in the School of Human Evolution and Social Change at Arizona State University. She also holds affiliate appointments at the Global Institute for Sustainability and the ASU Decision Theater.
- **Timothy Lant** is the director of program development for the ASU Knowledge Enterprise where he supports the identification and development of research funding opportunities for the Biodesign Institute and other university initiatives. He is an expert in pandemic modeling and response.
- **Heather Ross** is a clinical assistant professor at ASU and policy fellow in the office of Phoenix mayor Kate Gallego. She holds a joint appointment with the School for the Future of Innovation in Society and the Edson College of Nursing and Health Innovation.

Join us while sipping your coffee or tea for casual fun conversation to connect with your CHS family.

Host:    Sandy Martinez & Lauren Barnes
When:  Thursday, May 7, 2020 at 7:30am
Where:  https://asu.zoom.us/j/6024961123
CHS Happy Hour

Let’s chat as you unwind for the day over your favorite drink.

Host: Tyna Chu & Phil Carrano
When: Friday, May 8, 2020 at 4:30pm
Where: https://asu.zoom.us/j/97229886760

Wellness Wednesdays

Parenting in the Pandemic, Wednesday, May 6, at 10am

Are you looking for support and resources while parenting during the pandemic? You are not alone! Join other CHS parents navigating this challenging time. Bring questions, ideas, and the kids!

Here are some strategies to help!

We look forward to seeing you and sharing more great ideas!

Coming soon

Dissemination & Implementation Networking Event

Friday, May 15, 2020, 9am-10:30am, RSVP here.

This networking event is aimed to bring together expertise in dissemination and implementation science (D&I) across ASU. This will be the first in an ongoing series of meetings to build our capacity, collaborations and knowledge sharing to better support D&I research activities and training efforts. Faculty, staff, postdoctoral fellows and students of all levels are welcome to participate.

For questions, please contact Matthew Buman, mbuman@asu.edu, or Cady Berkel, cady.berkel@asu.edu.

Responding to COVID-19: A Science-based approach

Next webinar: Wednesday, May 13th, 5pm-6:30pm ET, 2pm Arizona time
From the website: This webinar is brought to you by the American Public Health Association and the National Academy of Medicine, this webinar series is exploring the state of the science surrounding the current outbreak of COVID-19 in the United State and globally, with a focus on the emerging evidence on how to best mitigate its impact.
