URGENT UPDATE: ASU Speech and Hearing Clinic Operations Status

Date: March 25, 2020

To: All patients of the Speech and Hearing Clinic

From: ASU College of Health Solutions

Subject: ASU Speech and Hearing Clinic: Update on clinic operations

Dear patients of the ASU Speech and Hearing Clinic,

The ASU Speech and Hearing Clinic at the College of Health Solutions is dedicated to providing high-quality care in a safe environment for our patients, students, clinicians and employees.

ASU remains open, however, due to the rapidly evolving public health crisis and out of concern for our patients, students, clinicians and employees, please note the following update regarding ASU Speech and Hearing Clinic operations:

• All appointments will be indefinitely postponed, starting today. At this time, we are unable to determine when regular appointments and services will resume.
• If you have an upcoming appointment already scheduled, clinic staff will be contacting you via phone as soon as possible with further information.

During this time, clinic services are available remotely for urgent issues only and by appointment only. If you have an urgent issue, please call the ASU Speech and Hearing Clinic at 480-965-2373. If you have a medical emergency, please call 911 or go to your nearest emergency room.

ASU’s COVID-19 web page (https://eoss.asu.edu/health/announcements/coronavirus) and the ASU FAQ web page (https://eoss.asu.edu/health/announcements/coronavirus/faqs) will continue to be the primary sources of information and updates related to university operations. We will communicate changes across as many channels as possible.

To speak to a staff member at the ASU Speech and Hearing Clinic, please call our office at 480-965-2373.

We appreciate your ongoing flexibility during this challenging time, and hope you are safe and healthy.

Joshua Breger, M.S., CCC-SLP
Director, Speech-Language Pathology Clinic Services

Kristin Samuelson, Au.D., CCC-A
Director, Audiology Clinic Services
